

In response to your notice regarding our failure to file a 12 day pre General report, the PAC has sent payment of \$900.00 to the Federal Election Commission. The failure to file was a result of our mistakes and oversight. We incorrectly filed a November 20th monthly report instead of submitting the pre general report. Due to this error, we have not been able to properly file the pre general report because the FECfile software will not accept reports with overlapping dates. We can submit a hard copy of the pre General report at your request or will take whatever steps are necessary to correct our errors.
